C Mathematical and Quantitative Methods

E.I. Im, Unequal numbers of observations and partial efficiency gain (C10)291
A. Peguin-Feissolle, Bayesian estimation and forecasting in non-linear models: Application to an LSTAR model (C11)187
T.M. Selden, Weighted generalized least squares estimation for complex survey data (C13) 1
Tran Van Hoa, Improved estimates and forecasts of error correction models in economics (C13)195
P.A.V.B. Swamy and G.S. Tavlas, Connections between GARCH and stochastic coefficients (SC) models (C20) 7
C. Bell and R.W. Rich, Testing for the exogeneity of real income in models of the poverty process: Evidence from post-independence India (C22)295
A.T.K. Wan, Risk comparison of the inequality constrained least squares and other related estimators under balanced loss (C22)203
L.-f. Lee, Rational expectations in limited dependent variable models (C24) 97
G. Moschini and D. Moro, Autocorrelation specification in singular equation systems (C30)303
C.R. Bhat, Imputing a continuous income variable from grouped and missing income observations (C34)311
F. Fornari and A. Mele, A stochastic variance model for absolute returns (C51)211
S. Li, Dynamic stability and learning processes in 2×2 coordination games (C70)105
T. Quint and L. Quintas, The Shapley value of resale-proof trades (C70) 11
N.S. Kukushkin, A fixed-point theorem for decreasing mappings (C72) 23
K.D. Patterson, A state space model for reducing the uncertainty associated with preliminary vintages of data with an application to aggregate consumption (C80)215

D Microeconomics

J. Pemberton, Ricardian Equivalence: Are the required assumptions defensible? (D10)223
G. Chichilnisky, Limited arbitrage is necessary and sufficient for the existence of a competitive equilibrium and the core, and limits voting cycles (D50)321
T. Sönmez, Consistency, monotonicity, and the uniform rule (D63)229
G. Dionne and P. Viala, Moral hazard, renegotiation and debt (D80)113
A.A. Batabyal and S.J. Yoo, Renewal theory and natural resource regulatory policy under uncertainty (D81)237
O. Volij, Dynamic consistency, consequentialism and reduction of compound lotteries (D81)121
J. Black and D. de Meza, The nature of credit-market failure (D82)243
F. Forges, A note on Pareto optimality in differential information economies (D82) 27
G.W. Evans and S. Honkapohja, Convergence of least squares learning to a non-stationary equilibrium (D83)131
L. Thoman, Repeat purchases under quality uncertainty (D83) 33
H. Hayakawa and S. Ishizawa, The optimal consumption–wealth relation and the permanent income–life cycle hypothesis under recursive preferences (D91) 41

E Macroeconomics and Monetary Economics

C. Jones, The interest sensitivity of wealth in the life cycle model (E21)333
T.M. Whited, Problems with identifying adjustment costs from regressions of investment on q (E22)339
D. Shin, Cyclicality of real wages among young men (E24)137
Z. Becsi and J.V. Duca, Adding bond funds to M2 in the P-Star model of inflation (E31)143
M. Crosby, Electing monetary policymakers according to inflation performance (E40)345
J.E. Ligthart and F. van der Ploeg, Pollution, the cost of public funds and endogenous growth (E60)351

F International Economics

T. Caporale and K. Doroodian, Exchange rate variability and the flow of international trade (F31) 49
Y.-W. Cheung and K.S. Lai, Mean reversion in real exchange rates (F31)251

G Financial Economics

A. Timmermann, Why do dividend yields forecast stock returns? (G00)149
A.V. Ligeralde, Simple foreign exchange market efficiency revisited (G14)257
S.A. Ravid, Residual securities and personal taxes (G32) 55

H Public Economics

H. Vennemo, Tax reform with sub-additive and nested-additive preferences (H21) 61
M. Gradstein, S. Nitzan and S. Slutsky, Neutrality and the private provision of public goods with incomplete information (H41) 69

I Health, Education, and Welfare

N. Kakwani, Testing an hypothesis about differences in poverty estimated from grouped data (I32)263

J Labor and Demographic Economics

R. Kollmann, Hidden unemployment: A search-theoretic interpretation (J20)363
J.M. Orszag, A new look at incentive effects and golf tournaments (J33) 77
C. Belzil, Some estimates of the effects of unemployment insurance on re-employment duration (J60)159
C.M. Campbell III, The determinants of dismissals: Tests of the shirking model with individual data (J63) 89
D.H. Blackaby, K. Clark, D.G. Leslie and P.D. Murphy, Black–white male earnings and employment prospects in the 1970s and 1980s: Evidence for Britain (J71)273

O Economic Development, Technological Change, and Growth

M.R. Sertel, Manipulating Lindahl equilibrium via endowments (O21)167
E. Agliardi and M. Bebbington, Self-reinforcing mechanisms and interactive behaviour (O30)281
A.N. Link and P. Kapur, A note on the diffusion of flexible manufacturing systems technology (O30)369

R Urban, Rural, and Regional Economics

P.S. McCarthy, Relaxed speed limits and highway safety: New evidence from California (R48)173
